

EMISSION CLASSIFICATION OF BUILDING MATERIALS

GERFLOR

The classification working group set up by The Building Information Foundation RTS has approved the following products:

Creation 30
Creation 55
Creation 55 Looselay
Creation 70
Creation 70 Looselay
Creation Mineral
Creation Wood
Virtuo 30
Virtuo 55

as belonging to emission class M1 for building materials.

The classification is valid until 4.11.2023.

GERFLOR has the right to equip its classified products with the classification mark and to use this classification mark when marketing these products.

The decision is in line with the requirements laid down in the Classification of Indoor Climate 2018 and the Classification of Building Materials: General Rules.
